GOLF HOLIDAYS 2007-2008

TALKING ROCK

CHASE, SHUSWAP LAKE, BRITISH COLUMBIA

Today, the Little Shuswap Band are proud owners of a championship, tournament style 18 hole golf course in a most unique and natural setting. The par 72 course covers from 5200 to 7130 yards. The high quality design by course architect Wayne Carleton offers diverse challenges for the scratch golfer as well as the professional golfer. Carleton is very pleased with the shape and look of this world class course. Routed through rugged, rock-peppered terrain on a sprawling 325-acre site along Little Shuswap Lake near Chase, Talking Rock features fantastic lake views and isolated, tree-lined holes that never encroach on one another. The holes blend very naturally with the strong features of the land and provide for a memorable golf experience for all to enjoy. The attention to detail in the finishing of the golf course is of the highest quality and an immeasurable amount of hand work was performed to achieve a very natural feel to all features. Every hole is separated from the rest, meandering through a mature pine forest and climbing up the slopes to provide memorable views of the lake and the entire resort.

The Shuswap Lakes area, situated halfway between Salmon Arm and Kamloops, is holiday heaven. There are gorgeous beaches, snow-capped mountains, world-renowned houseboating and mountain biking on those non-golfing days.

Jenahura Staff previewed the course just after opening in September of 2007 and were not disappointed. One of the delights of this course is that it is free of waterfront development and with only nature as your companion. Hole 18 is undoubtedly the signature hole, playing parallel to the sandy shore of Little Shuswap Lake. However the views from the 14th and 15th holes are most spectacular. This is definitely not your ordinary golf course there is even a sand trap in the shape of a bear. This is an outstanding new addition to the golf selection in the Kamloops area and will be very popular in 2008.
